TECHNICAL SKILLS

Languages: C#, Net Core, Go, Java (Spring Boot), TypeScript, Node.js, C++, SQL, PHP

Frontend/Mobile: Angular, React Native, Vue.js, Flutter, React, Redux, DevExtreme, Razor Pages, Bootstrap

DevOps/Cloud: Kubernetes, Docker, CI/CD, RabbitMQ, Redis, Nginx, Ocelot Gateway, Git

Data/Architecture: Microservices, PostgreSQL, MongoDB, SQL Server, MySQL, SQLite, Dapper, EF Core

EXPERIENCE

Senior Full Stack Developer

Venhancer

Jul. 2025 – Present

Istanbul, TR (Remote)

- Developing high-concurrency enterprise applications using **.NET 9** and **Angular**.

Software Team Lead

Forceget Supply Chain Logistics

Aug. 2023 – Jul. 2025

Miami, FL (Remote)

- Managed a team of 10 engineers, providing technical guidance and mentorship.
- Orchestrated a **microservices architecture** migration, resulting in a **60% reduction in latency**.
- Optimized database queries and API responses, achieving a **45% performance improvement**.
- Introduced Agile/Scrum methodologies, increasing team productivity by **35%**.

Full Stack Developer

Forceget Supply Chain Logistics

Aug. 2023 – Dec. 2023

Miami, FL (Remote)

- Developed digital freight forwarding features using **.NET Core**, **MySQL**, and automated CI/CD pipelines.

Full Stack Developer

Alpata Software & Technology

Jul. 2021 – Jul. 2023

Eskisehir, TR

- Developed applications using **.NET Core**, **Angular**, and **Flutter**; managed deployment on **Kubernetes** and **Docker**.
- Automated software processes and optimized performance for enterprise-level applications.

Full Stack Developer

Bilisim A.S.

Feb. 2021 – Jul. 2021

Ankara, TR

- Developed HR management modules for **HAVELSAN** using **.NET Core** and **Angular**.
- Designed and managed RESTful APIs and databases including Postgres and MySQL.

Full Stack Developer

Alpata Software & Technology

Jan. 2020 – Jan. 2021

Ankara, TR

- Maintained and added modules to enterprise applications using **.NET Core**, **MVC**, and **ASPX**.

Software Developer

Enal Software Consulting

Jun. 2019 – Nov. 2019

Malatya, TR

- Provided integration support for **Uyumsoft e-Invoice** GIB systems.
- Developed and published mobile applications using **React Native** on Google Play Store.

Software Developer

Tuga Technology

Jan. 2017 – Jun. 2019

Malatya, TR

- Developed modular applications using **.NET MVC**, **HTML**, **CSS**, and **JavaScript**.

FEATURED PROJECTS

NEC Ocelot Gateway | *.NET 9, Microservices, API Gateway*

- A high-performance Ocelot-based API Gateway designed for microservice architectures to manage routing, security, and scalability.

Blog API Golang | *Go, PostgreSQL, JWT, Swagger*

- RESTful Blog API featuring JWT authentication, PostgreSQL database integration, and auto-generated Swagger documentation for ease of use.

Distributed Map-Reduce | *Node.js, Socket.io, Docker*

- Real-time distributed Map-Reduce algorithm implementation utilizing Socket.io for node communication and Docker for containerized deployment.

Marvel Ecosystem | *React Native, Spring Boot, Vue.js*

- A comprehensive cross-platform ecosystem including a mobile app (React Native) and a Spring Boot REST API to explore character data.

EDUCATION

Inonu University

Bachelor of Science in Software Engineering

Malatya, TR

2015 – 2020
